(Select 'Register' in Top Right Corner) Overview The purpose of iron sights is often for a game to feel more realistic, as the player is aiming through the actual sights of a weapon.. Was one of the first games that took the step that if you aren't firing through your iron sights, you are firing from your hip, with much reduced accuracy, and now more games are using this as a standard feature, like the.. Games like and also use iron sights to a great extent to impact and change gameplay.. Games like do not use iron sights because of their third person perspective, but the idea is exactly the same, you have one button to shoot with and one to aim with, if you don't aim, you don't have a crosshair and suffer from reduced accuracy.
